## **TIMBREN SES**

### **SUSPENSION ENHANCEMENT SYSTEMS**

Timbren SES kits are designed to keep the vehicle level at all times and prevent roll and sway. The Aeon® rubber springs found in a Timbren SES kit have a progressive spring rate. In other words, you are guaranteed a soft, comfortable ride at all times.

- Better Ride Quality
- Zero Maintenance
- Added Stability
- Satisfaction Guarantee
- Easy Installation
- Lifetime Warranty

## **ACTIVE OFF-ROAD BUMPSTOPS**

Timbren Active Off-Road Bumpstops have been designed to allow for proper deflection of the suspension while, at the same time, providing a damping response when the suspension bottoms out. Aeon® rubber springs provide a progressive spring rate that reduce stress on your body and your vehicle.

- Smooth Axle Engagement
- Absorbs Road Shock
- Satisfaction Guarantee
- Zero Maintenance
- Lifetime Warranty

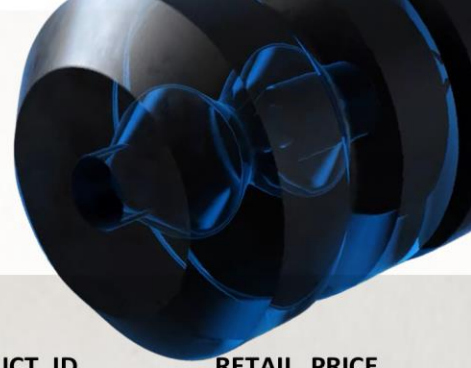

## **AEON SPRINGS**

Timbren Aeon® hollow rubber springs have some unique characteristics. One of them is a progressive spring rate. As the load increases, the rubber springs will push back even harder. The other is self-damping. They respond to the load just like a shock absorber. Both characteristics are useful in various industrial applications.

- Maintenance Free
- Variable Spring Rate
- Self-Damping
- Vibration Isolation
- Superior Ride Quality

## **AlloyGators**

### **WHEEL PROTECTORS**

---

AlloyGator Wheel Kerb Protectors are a highly engineered, robust wheel kerb protector designed to take the impact of kerbing and driving over potholes.

Drive with confidence knowing that your Wheels and Tyres are safe from road damage! We get it... wheel and tyre damage is infuriating and expensive, so eliminate this stress from your day and take pride in your ride knowing that AlloyGators are protecting your wheels.

Manufactured from blended super tough nylon, and engineered to be physically integrated between a tyre and alloy, AlloyGator offers market-leading, robust and unrivalled wheel rim protection.

## **14 Colours to Choose From!**

---

AlloyGator is not only passionate about wheel protection but style which means we offer Alloygators in 14 colours, to give our customers the option of subtle wheel protection or something more eye-catching.

## **Fitting Tools**

---

The products in the fitting kit have been specially sourced to ensure the fitting process for the AlloyGator is easy and gives you professional results.

## **BOLT Series of Locks**

**5/8" Receiver Lock, Toolbox Latch Retro Fit Kit, Locking Recovery Hook  
GM Tailgate Handle, Jeep Spare Tire Lock, Coupler Pin Lock  
Jeep Hood Lock, J-Mount, Padlock, Cable Lock, Off-Vehicle Coupler Lock  
Collar - Kingpin Locking System. Cylinder and Commercial Locks.**

If you drive a truck, haul gear or pull a trailer, then the BOLT Series of locks is for you. The BOLT Series of locks lets you set all your truck, trailer and equipment locks to work with one key – your ignition key!

Simply insert the truck's ignition key into the BOLT lock, turn it once and the lock mechanically and permanently learns the key code. But convenience isn't their only benefit. BOLT locks are made by STRATTEC, the world's largest manufacturer of automotive locks and keys, and the main OE lock supplier for Ford, GM and Chrysler.

Since BOLT locks use automotive technology and materials, they have the highest corrosion resistance rating on the market, and are nearly impossible to pick.

Whether you are a truck pro or a weekend warrior, you can't beat the convenience of BOLT locks. Why carry all those extra keys?

All BOLT locks feature:

- 6 Plate Tumbler Sidebar prevents picking, bumping.
- Automotive grade, weather-resistant shutter.
- Larger cylinder makes it more secure.

For modern cars, classic  
cars, muscle cars, light  
duty diesel and CNG*

*Heavy Duty Industrial  
Waterless Coolant  
For industrial, heavy  
equipment and  
gensets*

# EVANS WATERLESS COOLANT

**The SOLUTION TO BOILOVER & CORROSION**

Evans Waterless Coolant provides distinct advantages over traditional water-based coolant. The absence of water avoids the formation of vapor, high pressure and boil-over, and prevents corrosion and electrolysis. Evans' high boiling point and lower freeze point allow a wider and safer operating temperature range. The benefits derived from Evans can be achieved in most vehicle applications and engine types, although Evans' performance may vary depending on cooling system configurations.

*Powersports  
For powersports racing,  
motorcycles, ATVs, UTVs,  
and snowmobiles*

# MOTORCYCLE

*Bulbs, App Controlled Lights  
Forward Lighting & Signal Lights  
Underglow Accent Lights & Accessories.*

Add vibrant motorcycle underglow led light kit to your ride with both safety and fun. XKGLOW lights are designed to be plug and play and comes with a comprehensive 3yr warranty. In addition to accent under glow lights for motorcycles, check out our wide selection of ultra bright led headlight bulbs, taillights, running lights and more.

# CAR & TRUCK

*App Controlled Lights, Forward Lighting  
& Signal Lights, Underglow Accent Lights,  
Mounting Brackets, Bulbs & Accessories*

Looking for LED light kits for cars and trucks? You've come to the right place. XKGLOW offers a wide range of lighting options ranging from under car lighting kits, interior accent lights, headlights to taillights etc. With our exclusive plug-n-play design, you can easily plug in more lights to the car underglow, and customize the color and patterns through the phone.

# OFFROAD

*App Controlled Lights, S.A.R. Lighting System  
Light Bars & Work Lights, ATV & UTV, Jeep,  
Mounting Brackets & Accessories*

XKGLOW offroad lights series are design to endure the most exciting 4x4 journey and shines the light at when and where you need it the most. From the must have offroad rock lights to super bright LED bars, XKGLOW will take your vehicle lighting experience to the next level in both offroad and on-roads environments.

# EMERGENCY

*S.A.R. Lighting System, Strobe Lights  
Light Bars & Work Lights,  
Accessories*

XKGLOW emergency light kits for vehicles are designed for the construction or first responders vehicles to be seen and see at night. The strobe lights are designs with multiple flash patterns including traffic guidance. The SAR search light systems can instantly point light at where the driver is looking at.

## **MOUNTS**

---

Mount your smartphone, tablet or other mobile device to the headrest in your vehicle, on your vehicle's dash, on the wall in your home or office, to a bike, or even on a treadmill using any of our mobile device mounts. These mounts work great for iPad, iPhone, GPS, MP3, Android devices, and more. Check out the MagicMount by Scosche, the multi-award-winning magnetic mounting system for conveniently mounting your smartphone, tablet and more to many types of surfaces. It's the #1 MOUNTS brand in the country!

## **CHARGING**

---

Qi is the wireless charging standard developed by the Wireless Power Consortium, that provides 5-15 watts of power to electronics – primarily smartphones – via inductive charging. All Scosche wireless chargers and charging mounts are Qi-certified, and feature fast charging, as well as advanced safety features such as Foreign Object Detection. Many newer smartphones and tablets are Qi-enabled which means you can wirelessly charge them at home, in your office, and even in your vehicle, without ever having to plug a cable into your device. Simply place your phone or tablet on a Qi-certified charger and charging begins.

## **AUDIO**

---

Scosche has manufactured audio accessories including cables and adapters for decades. These include composite cables for mobile video systems, and aux cables.

## **CAR AUDIO**

---

Since 1980 Scosche has been the trusted Car Audio brand for both professional installers and enthusiasts. Use our Fit Guide to find the perfect product for your vehicle.

## **HEALTH AND FITNESS**

---

The core of Scosche's Health & Fitness line is the award winning Rhythm Armband Heart Rate Monitors because you deserve hyper-accurate data to maximize your workout without using a bulky chest strap.

## **RACEGAS**

---

RACE GAS is a specially formulated fuel concentrate that transforms gasoline from any gas station into high octane/high energy racing fuel suitable for competition and professional use.

RACE GAS is a race fuel concentrate. The purpose of the product is to create racing fuel out of pump gasoline from any gas station. So what does this mean?

First, other products on the market only raise the octane a few points but do not raise the octane to that of racing fuel. RACE GAS has been tested and proven to increase the octane of pump gas to as high as 100 to 105 AKI, (R+M/2), when blended with gasoline as specified in our blend chart.

Second, other products on the market only increase the octane. RACE GAS also raises the chemical / BTU energy of base fuel to equal that of racing fuel. This is very important as low energy with high octane will lean out the engine significantly at Wide Open Throttle.

## **RACE GAS ULTRA**

---

RACE GAS ULTRA is specifically designed for the requirements of very high compression, boosted or nitrous engines. ULTRA, when mixed with pump gasoline, will create racing fuel with octane between 108 and 112 r+m/2. Like our original product, ULTRA increases the octane, chemical oxygen and chemical energy of the fuel to equal commercially distilled racing fuel.

## **RACE GAS DIESEL**

---

Race Gas Diesel Performance Plus is the first diesel additive specifically designed and focused on diesel performance. Other products on the market focus on several issues that are caused by low sulfur diesel fuel like anti-gel, anti-fungal, and stiction. Race Gas Diesel Performance Plus focuses specifically on CETANE, Oxygen, and Lubrication so that users can take full advantage of power adders like tuners, bigger turbos, or propane injection.

Race Gas Diesel Performance Plus will:

- Increase CETANE by 14 numbers
- Improve throttle response and torque
- Increase oxygen in the fuel for more power
- Clean injectors and fuel system
- Work with any type of diesel fuel, (including biofuels)
- Add lubricity to protect fuel injectors and fuel pumps

**SIMPLE  
STRAP®**

# **SIMPLE STRAP**

**THE ORIGINAL ALL-PURPOSE RUBBER TIE-DOWN**

Simple Strap is a unique, innovative and extremely versatile product that has qualities and uses that are not in competition or comparison with ratchet straps or cam buckle tie-downs. This is one reason we were recently awarded a US patent. Simple Strap naturally conforms around objects and bundles almost any combination of shape and size. It also works dusty, dirty, underwater, in extreme temperatures and doesn't rust.

Replace your old ratchet straps, bungee cords, or buckle tie downs with Simple Strap™ today!

# RANGEFINDER MAGNETIC STRAP

**COMPACT. STRONG. DURABLE.**

Bluetees rangefinder's newest companion, designed to simplify your golf game. The magnetic strap attaches your rangefinder to the golf cart in between shots, allowing for quick and easy access.

Designed to be 70% smaller than other rangefinder straps, the Blue Tees Magnetic Strap will not get in your way. Equipped with our advanced quad magnetic technology, it securely locks on to any metal object.

# RANGEFINDERS

**SERIES 2 & 3 GOLF RANGEFINDER**

Bluetees rangefinder's Series 2 Pro expertly dials in your distances and makes club selection easy. Simple to use, this golf rangefinder is the perfect combination of size, accuracy, and advanced technology. Designed to change the way you see the course.

Bluetees rangefinder's The Series 3 Max rangefinder offers our most advanced software, next-generation design, ultra-premium materials, and a custom weather-proof case.

Bringing Active Slope Switch Technology, Crystal Clear Display, Built-in Magnetic Strip, Advanced Flag Lock + Pulse Vibration, Auto-Ambient Tech, and more - all for a fraction of the cost compared to the competition.

## **AQUATIC AV AMPLIFIERS**

***Five, Four, Three, and Two-Channel Amplifiers for Any Environment.***

Digital technology makes this amplifier an efficient use of power, lowering battery strain without compromising sound. Waterproof and dustproof, amplifier is built for durability and is great at staying out of sight.

## **AQUATIC AV SPEAKERS**

***Take Your Ride to the Next Level***

If you're looking for a way to amp up your bike's sound while upgrading its style, the Ultra Saddlebag 6x9" Speakers could be your solution. Not only do these speakers provide quality audio so intense that your bike can be heard from miles away, but these saddlebag speakers boast a sleek design with RGB lighting behind the grills that can be customized to any color you want with just the touch of a screen. A 6x9" cone allows you to feel the music while you ride, secure in the knowledge that these stereos are not only waterproof but built to withstand a myriad of tough environmental conditions. The Ultra Saddlebag 6x9" Speaker Kit is designed for Harley-Davidson touring motorcycles from 2014 models onward.

## **COUPLER LOCKS**

***Patented Designs, Skillfully Crafted.***

Blaylock American Metal™ has a coupler lock to meet the unattended security needs of any style coupler. Functional design and quality define all Blaylock American Metal™ trailer accessories. Like all Blaylock American Metal™ items, our trailer accessories are crafted with pride in the United States of America.

## **HOSE TUBE & TUBE CONTAINER DOORS**

***Thicker and Longer Lasting.***

Made of high quality aluminum, they will not rust or wear out.

Designed to attach to PVC and metal tubes, Blaylock American Metal™ doors average ¼" thicker than our competition. Available for customized branding.

Easy tank application, consistent seals and priced right to fulfill your tank construction needs.

Available in multiple spring configurations and gasket types (Blue Viton, Black Viton, Buna and other materials as requested).
